MANY AMATEUR TEAMS

Different Educational Institutions Newmeyer Goes to Colorado Springs. Will Have Strong Baseball Teams Coming Season.

While the outlook for a professional ball team for this city as the season appeaches does not appear to become any brighter, there is a little consolation in the fact that the team sport promises to boom among amateur agregations and the schools. During the last week the leading educational institutions have held meetings and formed temporary organizations to ormed temporary organizations to ush the game. The University of Itah, L. P. S. U., All Hallows and

definate toward such an organization has been attempted. Some of the schools do not favor the idea, and give as their reason the unstability of such associations. Each year a league is formed, and each year the same colapses before the season is half over, The reason for this lies with the teams themselves. Each member of the league enters with the firm conviction that they have a cinch on the championship. Two or three games is necessary to convince them that there can be but one champion, and the weaker teams drop out, leaving the leaders to fight among themselves. On this ac-count some of the teams do not favor

the league idea.

There is all kinds of rumors floating around among the amateurs about or-ganizing teams to take the place of professional clubs, but no teams have as yet been formed. The soldiers at Fort Douglas ae forming several clubs among the different companies and propose to enter the field in competition with the best city teams.

Ban Johnson's American League Will Expand to Metropolis.

New York, Feb. 22 .- Recent reports that the American league intends to place a club in this city have been strengthened by the presence here of Judge Harry Goldman, secretary and fer with Manager John McGraw, who leaves today for Hot Springs, Ark., where he will remain until the Baltimore club goes south for their prelimi-

ary training.

Judge Goldman said: "There is no doubt whatever that the American league intends to put a club in New York City. The only question is when it will be done, and that will be derided when the league meets in Detroit There are several ways in which this can be done. President Ban Johnson is my authority for the statement that if President Freedman wants to sell out, Johnson can find a purchaser for him."

MICAGO, Feb. 22.-Chicago paid fitting tribute today to the memory of Washington, All the banks, the stock exchange and the board of trade were elosed, and many of the large business houses observed the holiday. Flags floated from the government buildings, clubs, schools and many business blocks, and patriotic exercises were held in many quarters of the city. In the morning an audience of nearly 5,000 school children were present at a union celebration at the Auditorium given under the auspices of the Union League club. In the atternoon elaborate public exercises were held at the Auditorium under the auspices of the same club. There was a large audience. After selections et patriotic music and an invocation by Dr. Frank Gunsaulus, president Robert Mather introduced Senator Beveridge of Indiana, who spoke at great length on the necessity of conservatism. The tpeaker made a vigorous defense of the trusts.

Other exercises were held during the day by the froquois and Minnenaha clubs. Tonight banquets were held at the Marquette and Union League clubs. At the atter Baron d'Estournelles de Constant, member of the French chamber of deputies and former French minister in London delivered the principal of the constant of the minister in London, delivered the prin cipal address. Murdered and His Money Gone. Guthrie, O. T., Feb. 22.—A mysterious murder has just come to light at Ogmulgee by finding the body of Samuel McCov with a bullet hole in the back of his head. He had not been seen since Jan. 31. when he had \$400 on his person. That night his horse came home riderless.

Rheumatism seems to take a fiendish delight in torturing its victims. No mode of punishment ever invented by man, or practiced by devil-possessed savage, has caused more bodily suffering, such deep, racking pains, as this pitiless disease. Rheumatism leaves in its trail distorted muscles, crooked and misshapen joints and limbs, and the intense pain and agony endured is reflected in the haggard and furrowed countenance of the sufferer. Rheumatism makes us grow old and decrepid before our time, and many an one in the full vigor of manhood has been suddenly

stricken by this ruthless disease, and made almost as helpless and dependent as an infant. Chained to the invalid's chair or hobbling about on crutches, and continually tormented with pain, the patient in desperation resorts to the use of opiates, which deaden the pain but lead to ruinous habits. There is no disease so aggressive and stubborn as Rheumatism after it becomes well intrenched or fixed in the system, and no liniment or other external application can check it or do any permanent good. Rheumatism is not due to outside influences or causes, but is a constitutional disease, an internal inflammation produced by a too acid condition of the blood. Waste matter that should have been cast out of the body is retained, fermentation takes place, Uric, Lactic and other acids form and are absorbed into

the blood, and as it circulates through the system every joint, membrane, tissue and nerve is saturated with these corrosive, irritating acids; when exposure to cold and damp or a spell of indigestion will bring on a fierce attack that almost takes the breath by its suddenness and severity. The parts affected become inflamed and swollen, and every movement is attended with pains that seem to cut like a knife into the tender flesh and nerves. After Rheumatism becomes chronic there is always a soreness and weakness of the back and dull

hrobbing pains in the muscles and joints and an ever increasing stiffness of the limbs, This Demon of Pain attacks the old and young, the strong and the weak-no one is exempt, but from middle life to old age is the time when its assaults become most frequent and severe. At this period the vital energies begin to wane, the blood grows weak and thin, and is easily chilled, the circulation becomes uncertain and slow and there is scarcely a moment's freedom from pain in some part of the body.

The treatment of Rheumatism must be internal; some remedy that can reach and neutralize the poisonous acids and cleanse the circulation. S. S. S., a purely vegetable medicine, acts promptly and surely in all Rheumatic cases, purifying and invigorating the

impoverished blood, eradicating all impurities from the system, and sending a stream of rich new blood to wash out the irritating particles that are causing the inflammation and pains. In chronic cases, or those developing late in life, S. S. is especially effective; it warms and enriches the blood, restores nervous energy and stimulates the failing organs, improves the appetite and digestion, and

builds up the general health, thus fortifying the system against the tortures of Rheumatism. Alkalies, Potash and mineral remedies have an opposite effect, destroying the delicate lining of the stomach and often permanently impairing the constitution. S. S. S. is guaranteed entirely vegetable, and a specific in all Rheumatic troubles. Our Physicians will gladly advise, without charge, all who write them about their case, and we will mail free our special THE SWIFT SPECIFIC CO., Atlanta, Ga. rook on Rheumatism.
